

We all work hard. We all what nice things. I think that being an American has taken on new meaning since 9-11. For me personally, I am a republican. Yes I am also Native American. What does that have to do with listening to music? Not a whole lot. Please don't let unilateral thinking destroy what limited freedom Americans have. Not in OUR own home or car! This too me takes on a new meaning. XM radio helps me understand my way of relaxation. This may seem minor and it is to one person but to a large public it is a big deal. I am generally a quite person, but this is just outrageous and stupid. I am speaking out. Please consider your actions. When it comes to money, people will do anything or so it seems? Thank you for your valued time. R Joan Hernasy XM radio listener.
